## ## □ Active Professional Projects

### ### 1. WorkerHub – Service Marketplace Platform

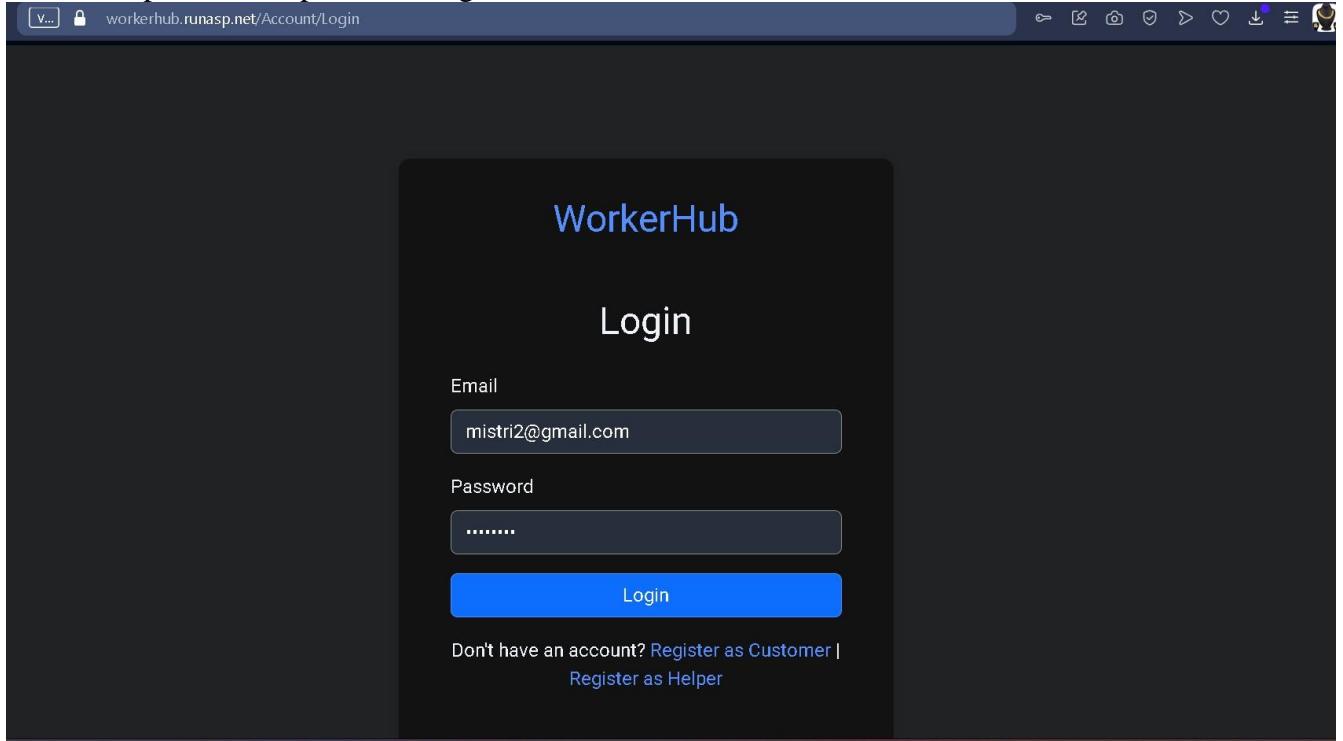

\*\*Live Project\*\*: [<https://workerhub.runasp.net>](<https://workerhub.runasp.net>)

A comprehensive digital platform connecting service providers with clients. Multi-role authentication system with role-based access control for Admin, Service Providers, and Clients.

#### \*\*Key Features\*\*:

- Multi-role authentication with role-based access control (RBAC)

- Service marketplace with advanced search and filtering by category/location
- Secure booking system with payment gateway integration
- Real-time notification system for bookings and updates
- Client rating and review system for quality assurance
- Comprehensive admin dashboard with analytics
- Mobile-optimized responsive design

- Database optimization for scalability

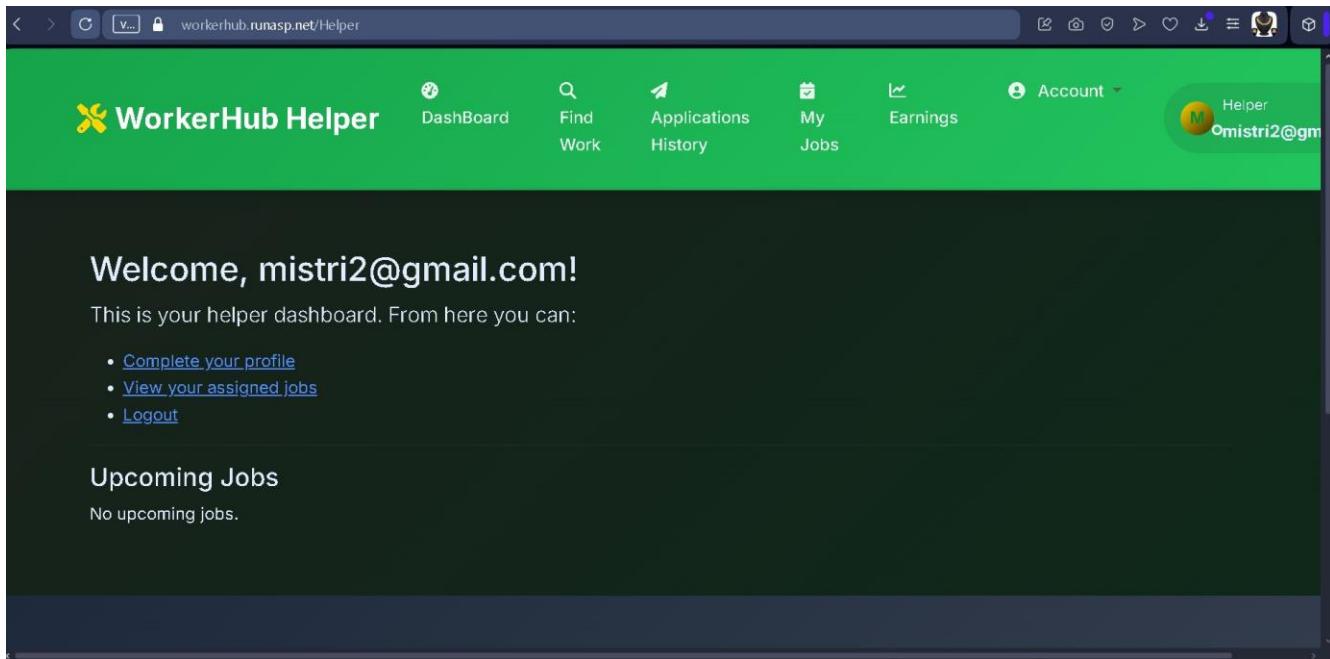

**\*\*Technologies Used\*\*:**

ASP.NET Core MVC • C# • SQL Server • Entity Framework • JavaScript • HTML5/CSS3 • Payment Gateway APIs

**\*\*Business Impact\*\*:**

- Automated service-to-client connections, reducing manual coordination overhead
- Increased marketplace efficiency and user engagement
- Scalable architecture supporting growth to additional cities/regions

![WorkerHub Platform Screenshot - Click to visit: <https://workerhub.runasp.net>](screenshot-placeholder)

The screenshot shows the WorkerHub Helper dashboard. At the top, there is a navigation bar with icons for Dashboard, Find Work, Applications History, My Jobs, Earnings, and Account. The account section shows the user is a 'Helper' with the email 'mistri2@gmail.com'. Below the navigation bar, a welcome message says 'Welcome, mistri2@gmail.com!' followed by the text 'This is your helper dashboard. From here you can:'. A list of actions includes: Complete your profile, View your assigned jobs, and Logout. The main content area is titled 'Upcoming Jobs' and displays the message 'No upcoming jobs.'
